### **Transportation Cabinet seeks comment on US 60 widening project**

*Public meeting Wednesday, May 23, 5-7 p.m. at Coalton*

FLEMINGSBURG, Ky. – If you frequently drive US 60 in Boyd County, especially from Coalton to Cannonsburg, what kind of roadway do you want in the future?

That's the question Kentucky Transportation Cabinet engineers will ask at a public meeting this week – Wednesday, May 23, 5-7 p.m. at the Boyd County Cooperative Extension Service's Franks Community Building – as part of an estimated \$38.7 million project to redesign the busy highway.

The project includes a proposed widening and other improvements to two miles of US 60 from the KY 180 intersection to the I-64 interchange.

At Wednesday's meeting, at 1758 Addington Road near the Boyd County fairgrounds, the public will be able to view maps of alternatives being considered and talk with engineers. The meeting will follow an open house format, with project overviews at 5:15 p.m. and 6:15 p.m. Questionnaires will be available, and all information and comments gathered will be considered as the design progresses. Information concerning Section 106 of the National Historic Preservation Act will also be available.

For more information about the meeting, please contact the Transportation Cabinet's Department of Highways District 9 office at (800) 817-2551 or online at <http://transportation.ky.gov/district-9>.
